

BOOMERANG CLUB PROGRAM

Winter 2023/2024

Being located in the heart of the Swiss Alps, what better than to deliver a personal program for children which combines all the best activities and makes the most of the great outdoors. The Boomerang Club Gstaad is for those who don't want to be lost in a crowd and want to express and develop themselves in a personal and caring environment.

We find it invaluable to teach children respect for others with the philosophy that everyday interactions and how you deal with those, whether positive or negative, will return back to you. In our perspective, this is reflected in everything that you do such as the attitude and effort you put into each task of your everyday life. One of the main themes throughout Boomerang Club, is to allow your child to have enough time on each activity and personal support to fully participate in all programs offered. A maximum of 4 children per leader allows us to provide an amazing day out experiencing real adventures.
